Subject index

Abortion, spontaneous
Detection of *Chlamydia trachomatis* antigen in spontaneous abortions. Is this organism a primary or secondary indicator of risk?, 126(OA)
Acinetobacter
Acinetobacter: the Gram-negative MRSA?, 42 *abs*
Acticlot V-Out (AVO)
Acticlot V-Out: a screen for the protein C anticoagulant pathway, 74 *abs*
Acute myeloid leukaemia
Megakaryopoiesis in myelodysplastic syndrome and acute myeloid leukaemia, 77 *abs*
Acute non-lymphocytic leukaemia
Constitutive activation of MAP kinase in acute non-lymphocytic leukaemia, 77 *abs*
Adherence
Adherence mechanisms of *Candida albicans,* 241(RA)
Albuminuria
Microalbuminuria in essential hypertension: clinical and biochemical profile, 287(OA)
Microalbuminuria: prognostic marker of cardiovascular disease in essential hypertension, 267(BC)
Alpha-thalassaemia
Progress with a routine service for detecting α-thalassaemia mutations, 78 *abs*
Amphotericin B
Effect of amphotericin B on neutrophil phagocytosis, 71 *abs*
Anaerobic bacteria
New techniques for the identification of anaerobes, 43 *abs*
Analytical toxicology
Interpretation of analytical toxicology results, 48 *abs*
Angiogenesis factor
Vascular endothelial growth factor and its receptor, Flt-1, in smokers and non-smokers, 207(OA)
Vascular endothelial growth factor in human milk, 215 (BS)
Antenatal screening
Universal antenatal screening for hepatitis B, 98 *abs*
Antibiotics
Effects of antimicrobial drugs on human neutrophil-microbe interactions, 19(RA)
Oxoid aura as a standard antimicrobial susceptibility test method, 46 *abs*
Antibodies, monoclonal
Graft-versus-host disease in allogeneic bone marrow transplantation: the role of monoclonal antibodies in prevention and treatment, 163(BE)
Antibody screening
Automated versus manually processed antibody screening using Capture ReadyScreen, 95 *abs*
Comparison of Diamed-ID and Sanofi Scangel antibody detection, 96 *abs*
Anticoagulant therapy
Monitoring oral anticoagulant therapy using a thromboplastin containing recombinant rabbit tissue factor, 72 *abs*
Tissue factor pathway inhibitor-factor Xa complexes and anticoagulant therapy, 70 *abs*
Anti-D reagents
Monoclonal reagents for Rhesus-D typing of Irish patients and donors: a review, 142(OA)
Antifungal agents
Adherence mechanisms of *Candida albicans,* 241(RA)
Antiganglioside antibodies
Antiganglioside antibodies in neurological diseases, 91 *abs*
Antigen retrieval
Antigen retrieval methods used in a London medical school histopathology department, 89 *abs*
Heat-mediated antigen retrieval methods and breast immunocytochemical markers, 80 *abs*
Antimicrobial sensitivity testing (AST)
Vitek automated identification and susceptibility testing system: introduction into a busy clinical bacteriology laboratory, 307(BS))
Antineural antibodies
Antineural antibodies, 91 *abs*
Antioxidants
Antioxidant power of oral hypoglycaemic drugs: an *in vitro* pilot study, 49 *abs*
Antiviral susceptibility
Antiviral susceptibility testing, 98 *abs*
Apoptosis
Apoptosis: its detection by TUNEL versus *in situ* DNA ligation, 79 *abs*
Asthma
Pathology of asthma, 86 *abs*
Autoantibody discussion groups
Importance of regional autoantibody discussion groups in providing a quality immunology service, 59 *abs*
Automation
Automated versus manually processed antibody screening using Capture ReadyScreen, 95 *abs*
Automation: a Scottish perspective, 57 *abs*
Automation and robotics, 49 *abs*
Evaluation of a new automated immunoassay for total homocysteine, 70 *abs*

Bacteraemia
Bacteraemia among patients attending a cancer hospital in Lahore, Pakistan, 119(OA)
Biochemical extraction
Re-expression of procollagen type IIA in oral squamous cell carcinoma, 192(OA)
Blood and blood products
Blood and blood product requirements in the neonate, 96 *abs*
Blood safety
Haematologists' concern over blood safety, 95 *abs*
Blood usage
Confidential inquiry into blood usage in orthopaedic surgery at six Welsh hospitals, 97 *abs*

Bone marrow transplantation
Graft-versus-host disease in allogeneic bone marrow transplantation: the role of monoclonal antibodies in prevention and treatment, 163(BE)
Bone marrow trephines
DNA extraction from bone marrow trephine and its subsequent use for clonality determination, 74 *abs*

Brain natriuretic peptide
Brain natriuretic peptide: age dependent in normal subjects?, 55 *abs*
Breast cancer
Breast cancer markers: comparison of cytological and histological immunodetection, 56 *abs*
Heat-mediated antigen retrieval methods and breast immunocytochemical markers, 80 *abs*
Immunohistochemical demonstration of myoepithelial cells of the breast, 82 *abs*
British Journal of Biomedical Science (BJBS)
Challengingtimes.online, 1(E)
BSE
Detection of embolic brain tissue in blood of slaughtered cattle, 84 *abs*
Prions in the food chain, 85 *abs*
Burkholderia cepacia
Burkholderia cepacia: diagnostic services offered by the reference laboratory, 45 *abs*
Burkholderia pseudomallei
Melioidosis: a disease not restricted to the tropics, 38 *abs*

C1 inhibitor deficiency
C1 inhibitor deficiency, 90 *abs*
Campylobacter species
Deoxyribonucleic acid restriction digest patterns in *Campylobacter* species: a comparison with Penner serotype, 137(OA)
Inhibition of selective media in the isolation of thermophilic *Cambylobacter* spp. from foods, 150(BS)
Population structure of *Campylobacter* spp.: implications for typing, 41 *abs*
Rapid identification of *Campylobacter* spp. using intact cell MALDI-TOF-MS, 40 *abs*
Campylobacter spp., thermophilic
Hippurate hydrolysis and speciation of thermophilic Campylobacter spp., 180(L)
Long-term preservation of thermophilic *Campylobacter* species: a simple method, 214(BS)
Candida albicans
Adherence mechanisms of *Candida albicans*, 241(RA)
Capillary flow capture immunoassay
Detection of urinary immune complexes by capillary flow capture immunoassay, 51 *abs*
Capillary zone electrophoresis (CZE)
The art of interpretation - one year's experience of CZE, 52 *abs*
Cardiovascular disease
Effects of fish-oil constituents and plasma lipids on fibrinolysis *in vitro*, 273(OA)
Microalbuminuria: prognostic marker of cardiovascular disease in essential hypertension, 267(BC)
Cattle brain tissue
Detection of embolic brain tissue in blood of slaughtered cattle, 84 *abs*
Cerebrospinal fluid
Protein determination in cerebrospinal fluid by protein dye-binding assay, 281(OA)
Cervical smears
Fungal contamination in cervical smears: time is of the essence, 57 *abs*
The pathological significance of the keratinised cervical smear, 57 *abs*
Chlamydia trachomatis
Detection of *Chlamydia trachomatis* antigen in spontaneous abortions. Is this organism a primary or secondary indicator of risk?, 126(OA)
Evidence for exposure to non-ocular serovars of *Chlamydia* in scarring trachoma, 35 *abs*
The molecular detection of *Chlamydia trachomatis* in urine samples from men with urethritis, 35 *abs*
Cholesterol
Analytical performance of the Genzyme LipoPro™ Lp(a) kit for plasma lipoprotein(a)-cholesterol assay, 13(OA)

Chromatography
Detection of the ßˢ gene: an evaluation of the solubility test against automated chromatography and haemoglobin electrophoresis, 292(OA)
Ciproflaxacin
Methicillin-resistant *Staphyloccocus aureus:* evaluation of selective media, 269(OA)
Clinical chemistry
Non- and minimally invasive techniques for near-patient testing, 49 *abs*
Clonality determination
DNA extraction from bone marrow trephine and its subsequent use for clonality determination, 74 *abs*
Clozapine
Analytical performance of clozapine and selective serotonin reuptake inhibitor assays, 51 *abs*
Coagulase-negative staphylococci
An epidemiological study of coagulase-negative staphylococci on neonatal intensive care unit, 39 *abs*
Coeliac disease
Coeliac disease in adolescents/young adults: difficulties in monitoring, 217(BS)
Development and evaluation of assays diagnostic of coeliac disease, 92 *abs*
Collagen
Re-expression of procollagen type IIA in oral squamous cell carcinoma, 192(OA)
Committee on Publications Ethics (COPE) guidelines
Guidelines on good publication practice, 2(BC)
Computer simulation
Applications of computer-aided learning in biomedical sciences: considerations in design and evaluation, 28(RA)
Computer-assisted instruction
Applications of computer-aided learning in biomedical sciences: considerations in design and evaluation, 28(RA)
Continuing professional competance
Skills and competencies - how can they be interpreted for the biomedical scientist?, 60 *abs*
Coomassie brilliant blue
Protein determination in cerebrospinal fluid by protein dye-binding assay, 281(OA)
Cornea
Binding of some Diocleinae lectins to the mucosal surfaces of the eye and mouth, 7(OA)
Wound healing, 89 *abs*
Creutzfeldt-Jakob disease
Immunocytochemical demonstration of prion protein in Creutzfeldt-Jakob disease, 83 *abs*
Prions in the food chain, 85 *abs*
Technical aspects of Creutzfeldt-Jakob disease, 85 *abs*
Culture media
Isolation of methicillin-resistant *Staphylococcus aureus* from non-sterile sites: evaluation of a new selective medium, 114(OA)
Methicillin-resistant *Staphyloccocus aureus:* evaluation of five selective media, 269(OA)
Cystatin C
Diagnostic applications of cystatin C, 323(BE)
Cysteine endopeptidases
Diagnostic applications of cystatin C, 323(BE)
Cystic fibrosis
Burkholderia cepacia: diagnostic services offered by the reference laboratory, 45 *abs*
Small-colony variants of *Staphylococcus aureus,* 317(BE)
Cytology. *see* Cytopathology
Cytolysis
Biomodal role for divalent cations in the methanism of EDTA cytolysis, 313(BS)
Cytopathology
Breast cancer markers: comparison of cytological and histological immunodetection, 56 *abs*
Diagnostic challenges in serous fluids cytology, 56 *abs*
Diagnostic cytology and oesophageal cancer — a South African perspective, 58 *abs*
The future for biomedical science in cytopathology, 56 *abs*
Cytotoxicity
In vitro evaluation of lectin cytotoxicity, 79 *abs*

D-dimer assays
Comparison of an online D-dimer assay to exclude venous thromboembolism, 76 *abs*
Diabetes mellitus
Antioxidant power of oral hypoglycaemic drugs: an *in vitro* pilot study, 49 *abs*
Diabetic monitoring — a clinician's view, 47 *abs*
Diabetic nephropathy — genetic determinants, 47 *abs*
Disinfection, heat
Heat disinfection of clinical waste: microbiological assessment and monitoring of effectiveness, 107(OA)
Disseminated intravascular coagulation
Waveform pattern analysis in disseminated intravascular coagulation, 63 *abs*
DNA extraction
DNA extraction from bone marrow trephine and its subsequent use for clonality determination, 74 *abs*
DNA ligation
Apoptosis: its detection by TUNEL versus *in situ* DNA ligation, 79 *abs*
DNA restriction enzymes
Deoxyribonucleic acid restriction digest patterns in *Campylobacter* spp.: a comparison with Penner serotype, 137(OA)
Dot blots
The evaluation of a transparent solid phase for dot blots, 50 *abs*
Drug effects
Effects of antimicrobial drugs on human neutrophil-microbe interactions, 19(RA)
Drug resistance, microbial
Clinical and community strains of *Klebsiella pneumoniae:* multiple and increasing rates of antibiotic resistance in Abha, Saudi Arabia, 185(OA)

Education
Applications of computer-aided learning in biomedical sciences: considerations in design and evaluation, 28(RA)
Biomedical science education — an international perspective, 61 *abs*
European modules in biomedical science — a developing model, 61 *abs*
Innovation in curriculum delivery: looking back to the future, 59 *abs*
Skills and competancies — how can they be interpreted for the biomedical scientist?, 60 *abs*
Training — against all the odds, 61 *abs*
Vocational training for biomedical scientists — support your trainers!, 62 *abs*
Electrophoresis
Detection of the ßˢ gene: an evaluation of the solubility test against automated chromatography and haemoglobin electrophoresis, 292(OA)

Embolic brain tissue
Detection of embolic brain tissue in blood of slaughtered cattle, 84 *abs*
Endocrine pathology
In situ hybridisation and its application in endocrine pathology, 86 *abs*
Enrichment broth
Enrichment broth evaluation, 37 *abs*
Enzyme-linked immunosorbent assay (ELISA)
An ELISA detection method for the prothrombin G20210A mutation, 69 *abs*
Mycoplasma detection in cell cultures: a comparison of four methods, 295(BE)
Epstein-Barr virus
Epstein-Barr virus detection in immunocompetent patients with primary CNS lymphoma, 81 *abs*
Equipment safety
Microbiological safety cabinets: selection, installation, testing and use, 330(RA)
Ergonomic intervention
Ergonomic intervention: its effect on working posture and musculoskeletal symptoms in female biomedical scientists, 199(OA)
Erythrocyte membranopathy
Detection of erythrocyte membranopathy by flow cytometry, 76 *abs*
Erythrocytes lectin binding activity
Quantification of lectin binding activity to erythrocytes using a spectrophotometric method, 67 *abs*
Ethics
Human research tissue banks in the UK National Health Service: laws, ethics, controls and constraints, 250(RA)
Ethylenediaminetetraacetic acid (EDTA)
Biomodal role for divalent cations in the methanism of EDTA cytolysis, 313(BS)
European biomedical training
European modules in biomedical science — a developing model, 61 *abs*
Excretion rate
Microalbuminuria in essential hypertension: clinical and biochemical profile, 287(OA)
External quality assurance
An improved EQA scheme for near-patient INR testing, 68 *abs*
Eye
Binding of some Diocleinae lectins to the mucosal surfaces of the eye and mouth, 7(OA)
Wound healing, 89 *abs*

Factor V Leiden
Simultaneous detection of factor V Leiden and prothrombin 20210A mutations by PCR-RFLP, 67 *abs*
Faecal fat excretion
Time to scrap faecal fat estimation?, 54 *abs*
Fetal HIV
Immune responses associated with HIV-1 in human fetal and infant CNS, 83 *abs*
Fever of unknown origin
Bacteraemia among patients attending a cancer hospital in Lahore, Pakistan, 119(OA)
Fibrinolysis
Effects of fish-oil constituents and plasms lipids on fibrinolysis *in vitro*, 273(OA)
Fish oils
Effects of fish-oil constituents and plasms lipids on fibrinolysis *in vitro*, 273(OA)
Flow cytometry
Detecting malarial parasites by flow cytometry using coriphosphine, 69 *abs*
Detection of erythrocyte membranopathy by flow cytometry, 76 *abs*
Membrane protein band 3 assay in hereditary spherocytosis using flow cytometry, 74 *abs*
Fluorescent *in situ* hybridisation (FISH)
Fluorescent *in situ* hybridisation as a useful technique in diagnostic pathology, 87 *abs*
Folic acid
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Fugitive discharges
Fugitive discharges and waste disposal: the discussion continues, 339(L), 341(L)
Fugitive discharges from waste disposal treatments, 182(L)
Fusobacterium infection
Fusobacterial infections: an underestimated threat, 156(BE)

Gambia, The
Ethnic differences in allele frequency of TNF-α–308 promoter polymorphism, 93 *abs*
Molecular epidemiology of *Haemophilus influenzae* type b (Hib) isolates from The Gambia, 44 *abs*
Garlic
Antibacterial activity of garlic extracts against MRSAs and Gram-negative rods, 43 *abs*
Gastric biopsies
A rapid one-step staining method for oesophageal and gastric biopsies, 81 *abs*
Genetic polymorphisms
Genetic polymorphisms for microsomal epoxide hydrolase in paracetamol overdose poisoning, 88 *abs*
Glomerular filtration rate
Diagnostic applications of cystatin C, 323(BE)
Glucose 6-phosphate dehydrogenase
Glucose 6-phosphate dehydrogenase deficiency measurement and neonatal screening, 75 *abs*
Glutathione peroxidase
Effect of polysaccharide krestin on glutathione peroxidase gene expression in mouse peritoneal macrophages, 130(OA)
Glutathione transferase
Effect of polysaccharide krestin on glutathione peroxidase gene expression in mouse peritoneal macrophages, 130(OA)
Glycolysis
Mammalian hexokinases and their abnormal expression in cancer, 170(RA)
Graft *vs* host disease
Graft-versus-host disease in allogeneic bone marrow transplantation: the role of monoclonal antibodies in prevention and treatment, 163(BE)
Gram-negative rods
Antibacterial activity of garlic extracts against MRSAs and Gram-negative rods, 43 *abs*

Haematinic assays
Evaluation of haematinic assays using the Roche Elecsys analyser, 73 *abs*
Haematology
Haematologists' concern over blood safety, 95 *abs*

Haemochromatosis mutation
Haemochromatosis mutation analysis in a normal Irish population, 315(BS)
Haemoglobin
Detection of the β^s gene: an evaluation of the solubility test against automated chromatography and haemoglobin electrophoresis, 292(OA)
Haemoglobin A_{1c}
Haemoglobin A_{1c} methods: past, present and future, 48 *abs*
Haemophilus influenzae
Molecular epidemiology of *Haemophilus influenzae* type b (Hib) isolates from The Gambia, 44 *abs*
Rapid and simple Microtek biotyping method for *Haemophilus influenzae*, 36 *abs*
Haemopoietic progenitor cell counts
Haemopoietic progenitor cell counts in peripheral blood stem-cell harvesting, 68 *abs*
Haemostatic parameters
Haemostatic parameters for monitoring treatment of bacterial meningitis, 66 *abs*
Head and neck tumours
Frequent common clonal origin of multiple head and neck tumours, 83 *abs*
Heart diseases
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Helicobacter pylori
The effect of *Helicobacter pylori* eradication on rosacea, 38 *abs*
Heparin-induced thrombocytopenia
Detection of heparin-induced thrombocytopenia: a comparison of techniques, 66 *abs*
Hepatitis B screening
Universal antenatal screening for hepatitis B, 98 *abs*
Hepatitis C infection
Iron status and the clinical course of hepatitis C infection, 65 *abs*
Herbal medicine
Seroepidemiological survey of leptospirosis in a region of Venezuela, 35 *abs*
Hexokinase
Mammalian hexokinases and their abnormal expression in cancer, 170(RA)
Hippurate hydrolysis
Hippurate hydrolysis and speciation of thermophilic *Campylobacter* spp., 180(L)
Histological immunodetection
Breast cancer markers: comparison of cytological and histological immunodetection, 56 *abs*
Histopathology
Antigen retrieval methods used in a London medical school histopathology department, 89 *abs*
HIV-1 infection
Immune responses associated with HIV-1 in human fetal and infant CNS, 83 *abs*
Homocysteine
Evaluation of a new automated immunoassay for total homocysteine, 70 *abs*
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Hong Kong
Influenza A H5N1: the Hong Kong outbreak, 99 *abs*
Human papillomavirus (HPV)
Detection of genital and cutaneous human papillomavirus types: differences in the sensitivity of generic PCRs, and consequences for clinical virological diagnosis, 221(BS)
Hybridisation
In situ hybridisation and its application in endocrine pathology, 86 *abs*
Hypertension
Microalbuminuria in essential hypertension: clinical and biochemical profile, 287(OA)
Microalbuminuria: prognostic marker of cardiovascular disease in essential hypertension, 267(BC)

Immunoassays
Development of an intrinsic factor antibody assay on the Immulite analyser, 63 *abs*
Internal quality control in virology: validation of immunoassays using a personal computer spreadsheet, 302(OA)
Measurement of vitamin B_{12}, folate and ferritin using Beckman Coulter ACCESS immunoassay analyser, 73 *abs*
Immunocompromised host
Bacteraemia among patients attending a cancer hospital in Lahore, Pakistan, 119(OA)
Immunocytochemistry
Epstein-Barr virus detection in immunocompetent patients with primary CNS lymphoma, 81 *abs*
Immunocytochemical demonstration of prion protein in Creutzfeldt-Jakob disease, 83 *abs*
Immunocytochemistry as an adjunct to the diagnosis of malignant melanoma, 88 *abs*
Immunocytochemistry in bone marrow trephines, 81 *abs*
Immunocytochemistry of lymphomas, 85 *abs*
Immunohistochemistry
Immunohistochemical demonstration of myoepithelial cells of the breast, 82 *abs*
Mycoplasma detection in cell cultures: a comparison of four methods, 295(BE)
Re-expression of procollagen type IIA in oral squamous cell carcinoma, 192(OA)
Tyrosinase and Melan-A: new antibodies for the demonstration of melanoma, 87 *abs*
Immunology
Importance of regional autoantibody discussion groups in providing a quality immunology service, 59 *abs*
Immunoplatelet count
Current platelet topics: a proposed new reference method for platelet counting, 65 *abs*
Infant HIV
Immune responses associated with HIV-1 in human fetal and infant CNS, 83 *abs*
Infection control
Isolation of methicillin-resistant *Staphylococcus aureus* from non-sterile sites: evaluation of a new selective medium, 114(OA)
Influenza
A new containment level 4 facility for 1918 influenza virus work, 100 *abs*
Influenza A H5N1
Influenza A H5N1: the Hong Kong outbreak, 99 *abs*
Informed consent
Human research tissue banks in the UK National Health Service: laws, ethics, controls and constraints, 250(RA)
INR testing
An improved EQA scheme for near-patient INR testing, 68 *abs*
Insulin resistance
Microalbuminuria in essential hypertension: clinical and biochemical profile, 287(OA)

Insulin-like growth factor (IGF-1)
The measurement of free insulin-like growth factor-1, 53 *abs*
Internet
Applications of computer-aided learning in biomedical sciences: considerations in design and evaluation, 28(RA)
Challengingtimes.online, 1(E)
Iron
Iron status and the clinical course of hepatitis C infection, 65 *abs*

Journal-based learning, 102, 179, 261, 343

KIT activation
Ligand-mediated activation of KIT in the M07E call line, 71 *abs*
Klebsiella species
Extended-spectrum β-lactamase-producing *Klebsiella* spp., 226(BE)
Klebsiella pneumoniae
Clinical and community strains of *Klebsiella pneumoniae:* multiple and increasing rates of antibiotic resistance in Abha, Saudi Arabia, 185(OA)

Lactamase
Extended-spectrum β-lactamase-producing *Klebsiella* spp., 226(BE)
Law
Human research tissue banks in the UK National Health Service: laws, ethics, controls and constraints, 250(RA)
Lectins
Binding of some Diocleinae lectins to the mucosal surfaces of the eye and mouth, 7(OA)
Binding of Tc-99m-labelled lectins to rat oral cavity tissue *in vivo*, 47 *abs*
Lectin staining in lungs from models of mucus hypersecretion, 82 *abs*
Mannose-binding lectin, 91 *abs*
Quantification of lectin binding activity to erythrocytes using a spectrophotometric method, 67 *abs*
In vitro evaluation of lectin cytotoxicity, 79 *abs*
Leptospirosis
Seroepidemiological survey of leptospirosis in a region of Venezuela, 35 *abs*
Leukaemia
Analysis of the proto-oncogene *c-kit* in acute non-lymphoblastic leukaemia, 67 *abs*
Constitutive activation of MAP kinase in acute non-lymphocytic leukaemia, 77 *abs*
Ligand-mediated activation of KIT in the M07E call line, 71 *abs*
Megakaryopoiesis in myelodysplastic syndrome and acute myeloid leukaemia, 77 *abs*
Ligand-mediated KIT activation
Ligand-mediated activation of KIT in the M07E cell line, 71 *abs*
Lipids/blood
Effects of fish-oil constituents and plasms lipids on fibrinolysis *in vitro*, 273(OA)
Lipoprotein(a)
Analytical performance of the Genzyme LipoPro™ Lp(a) kit for plasma lipoprotein(a)-cholesterol assay, 13(OA)
Liver transplants
Respiratory viruses in adult liver transplant patients, 99 *abs*
Lungs
Lectin staining in lungs from models of mucus hypersecretion, 82 *abs*

Lymphomas
Epstein-Barr virus detection in immunocompetent patients with primary CNS lymphoma, 81 *abs*
Immunocytochemistry of lymphomas, 85 *abs*
Molecular genetics of lymphoma, 86 *abs*

Macrophages
Effect of polysaccharide krestin on glutathione peroxidase gene expression in mouse peritoneal macrophages, 130(OA)
Malaria
Detecting malarial parasites by flow cytometry using coriphosphine, 69 *abs*
Detection of falciparum malaria by asymmetric PCR and hybridisation-based signal amplification, 64 *abs*
Mannose-binding lectin
Mannose-binding lectin, 91 *abs*
Mast cells
Effect of non-steroidal anti-inflammatory drugs on rat mast cells, 90 *abs*
Megakaryopoiesis
Megakaryopoises in myelodysplastic syndroma and acute myeloid leukaemia, 77 *abs*
Melan-A
Tyrosinase and Melan-A: new antibodies for the demonstration of melanoma, 87 *abs*
Melanoma
Immunocytochemistry as an adjunct to the diagnosis of malignant melanoma, 88 *abs*
Tyrosinase and Melan-A: new antibodies for the demonstration of melanoma, 87 *abs*
Melioidosis
Melioidosis: a disease not restricted to the tropics, 38 *abs*
Meningococcal disease
Development and use of vaccines for meningococcal disease, 41 *abs*
Haemostatic parameters for monitoring treatment of bacterial meningitis, 66 *abs*
Laboratory diagnosis of meningococcal infection, 40 *abs*
Population biology of the meningococcus, 41 *abs*
Urinary antigen diagnosis of meningococcal disease, 153(BS)
Menstrual cycle
Renal 11ß-hydroxysteroid dehydrogenase activity throughout the menstrual cycle, 53 *abs*
Methicillin-resistant *Staphyloccocus aureus* (MRSA)
Methicillin-resistant *Staphyloccocus aureus:* evaluation of selective media, 269(OA)
Acinetobacter: the Gram-negative MRSA?, 42 *abs*
Antibacterial activity of garlic extracts against MRSAs and Gram-negative rods, 43 *abs*
Eradication of methicillin-resistant *Staphylococcus aureus* (MRSA), 42 *abs*
Errors in determining trimethoprim susceptibility of staphylococci using the Vitek, 45 *abs*
Evaluation of Swiftek for MRSA screening, 38 *abs*
Isolation of methicillin-resistant *Staphylococcus aureus* from non-sterile sites: evaluation of a new selective medium, 114(OA)
Microbiology
Heat disinfection of clinical waste: microbiological assessment and monitoring of effectiveness, 107(OA)
Microbiology safety cabinets
Microbiological safety cabinets: selection, installation, testing and use, 330(RA)

Microsomal epoxide hydrolase
Genetic polymorphisms for microsomal epoxide hydrolase in paracetamol overdose poisoning, 88 *abs*
Milk, human
Vascular endothelial growth factor in human milk, 215(BS)
Minimally invasive techniques
Non- and minimally invasive techniques for near-patient testing, 49 *abs*
Mitogen-activated protein kinases
Constitutive activation of MAP kinase in acute non-lymphocytic leukaemia, 77 *abs*
Molecular biology
Are molecular techniques value for money?, 75 *abs*
Molecular biology in a routine diagnostic virology laboratory, 100 *abs*
Molecular biology of prion disease, 84 *abs*
Molecular genetics
Molecular genetics of lymphoma, 86 *abs*
Mouth
Binding of some Diocleinae lectins to the mucosal surfaces of the eye and mouth, 7(OA)
Mouth neoplasms
Re-expression of procollagen type IIA in oral squamous cell carcinoma, 192(OA)
Mucous membrane
Binding of some Diocleinae lectins to the mucosal surfaces of the eye and mouth, 7(OA)
Mucus hypersecretion
Lectin staining in lungs from models of mucus hypersecretion, 82 *abs*
Multiple myeloma (MM)
Serum C4 complement levels in multiple myeloma, 93 *abs*
Muscular dystrophy
Immunoperoxidase staining of routine paraffin-wax sections for the diagnosis of muscular dystrophies, 87 *abs*
Musculoskeletal system
Ergonomic intervention: its effect on working posture and musculoskeletal symptoms in female biomedical scientists, 199(OA)
Mycobacterium species
Mycoplasma detection in cell cultures: a comparison of four methods, 295(BE)
The bovine tubercle bacillus, 234(RA)
Myelodysplastic syndrome
Megakaryopoiesis in myelodysplastic syndrome and acute myeloid leukaemia, 77 *abs*
Myoepithelial cells
Immunohistochemical demonstration of myoepithelial cells of the breast, 82 *abs*

Near-patient testing
An improved EQA scheme for near-patient INR testing, 68 *abs*
Comparative study of two near-patient tests for smoking, 54 *abs*
Non- and minimally invasive techniques for near-patient testing, 49 *abs*
Neighbourhood and community scientists
Neighbourhood and community scientists, 62 *abs*
Neonatal intensive care
An epidemiological study of coagulase-negative staphylococci on neonatal intensive care unit, 39 *abs*
Neonatal screening
Glucose 6-phosphate dehydrogenase deficiency measurement and neonatal screening, 75 *abs*
Neonates
Blood and blood product requirements in the neonate, 96 *abs*
Neoplasms
Mammalian hexokinases and their abnormal expression in cancer, 170(RA)
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Re-expression of procollagen type IIA in oral squamous cell carcinoma, 192(OA)
Neural tube defects
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Neurological diseases
Antiganglioside antibodies in neurological diseases, 91 *abs*
Antineural antibodies, 91 *abs*
Neutrophils
effect of amphotericin B on neutrophil phagocytosis, 71 *abs*
Effects of antimicrobial drugs on human neutrophil-microbe interactions, 19(RA)
T-cell and neutrophil functional assays, 92 *abs*
Non-lymphoblastic leukaemia
Analysis of the proto-oncogene *c-kit* in acute non-lymphoblastic leukaemia, 67 *abs*
Ligand-mediated activation of KIT in the M07E call line, 71 *abs*
Non-steroidal anti-inflammatory drugs
Effect of non-steroidal anti-inflammatory drugs on rat mast cells, 90 *abs*

Occupational standards
Occupational standards in biomedical science, 60 *abs*
Oesophageal biopsies
A rapid one-step staining method for oesophageal and gastric biopsies, 81 *abs*
Oesophageal cancer
Diagnostic cytology and oesophageal cancer — a South African perspective, 58 *abs*
Oestradiol
Evaluation of the oestradiol assay on the Roche Elecsys™ 2010, 52 *abs*
One-carbon metabolism
New perspectives on folate status: a differential role for the vitamin in cardiovascular disease, birth defects and other conditions, 254(RA)
Orthopaedic surgery
Confidential inquiry into blood usage in orthopaedic surgery at six Welsh hospitals, 97 *abs*
Osteoarthritis
Modification of a tinctorial stain for histomorphometric analysis of subchondral bone in a model for osteoarthritis, 80 *abs*
Osteomyelitis
Small-colony variants of *Staphylococcus aureus*, 317(BE)
Oxidative-stress survival
Effect of culture medium on oxidative-stress survival by *Porphyromonas gingivalis*, 44 *abs*
Oxoid aura
Oxoid aura as a standard antimicrobial susceptibility test method, 46 *abs*

Paracetamol overdose poisoning
Genetic polymorphisms for microsomal epoxide hydrolase in paracetamol overdose poisoning, 88 *abs*

Parasitology
A new look at *Trichomonas vaginalis*, 94 *abs*
Partial D.
Monoclonal reagents for Rhesus-D typing of Irish patients and donors: a review, 142(OA)
Parvovirus B19 IgM
Accurate detection of parvovirus B19 IgM is critical in the diagnosis of infection, 100 *abs*
Peripheral blood stem-cell harvesting
Haemopoietic progenitor cell counts in peripheral blood stem-cell harvesting, 68 *abs*
Phlebotomists
A new training and accreditation framework for phlebotomists, 61 *abs*
Plant extracts
Search for compounds with biological activity in plants of the Venezuelan Amazon region, 36 *abs*
Plasmodium falciparum
Detection of falciparum malaria by asymmetric PCR and hybridisation-based signal amplification, 64 *abs*
Platelet counting
Current platelet topics: a proposed new reference method for platelet counting, 65 *abs*
Polymerase chain reaction (PCR)
Detection of falciparum malaria by asymmetric PCR and hybridisation-based signal amplification, 64 *abs*
Detection of genital and cutaneous human papillomavirus types: differences in the sensitivity of generic PCRs, and consequences for clinical virological diagnosis, 221(BS)
Molecular biology in a routine diagnostic virology laboratory, 100 *abs*
Mycoplasma detection in cell cultures: a comparison of four methods, 295(BE)
Polymerase chain reaction for rapid detection of pathogenic *Yersinia enterocolitica*, 44 *abs*
Simultaneous detection of factor V Leiden and prothrombin 20210A mutations by PCR-RFLP, 67 *abs*
Thermus aquaticus (Taq) error rates and REP-PCR, 338(L)
Polymorphism, restriction fragment length
Deoxyribonucleic acid restriction digest patterns in *Campylobacter* species: a comparison with Penner serotype, 137(OA)
Polysaccharides, protein-bound
Effect of polysaccharide krestin on glutathione peroxidase gene expression in mouse peritoneal macrophages, 130(OA)
Porphyromonas gingivalis
Effect of culture medium on oxidative-stress survival by *Porphyromonas gingivalis*, 44 *abs*
Post-partum blood loss
Estimation of blood loss during the third stage of labour, 72 *abs*
Posture
Ergonomic intervention: its effect on working posture and musculoskeletal symptoms in female biomedical scientists, 199(OA)
Priapism
Undetectable serum glucose concentration in a patient with priapism, 151(BS)
Prion protein
Immunocytochemical demonstration of prion protein in Creutzfeldt–Jakob disease, 83 *abs*
Molecular biology of prion disease, 84 *abs*
Prions in the food chain, 85 *abs*
Technical aspects of Creutzfeldt–Jakob disease, 85 *abs*
Protein assay
Protein determination in cerebrospinal fluid by protein dye-binding assay, 281(OA)
Protein C anticoagulant pathway
Acticlot V-Out: a screen for the protein C anticoagulant pathway, 74 *abs*
Prothrombin 20210A mutations
Simultaneous detection of factor V Leiden and prothrombin 20210A mutations by PCR-RFLP, 67 *abs*
Prothrombin G20210A mutation
An ELISA detection method for the prothrombin G20210A mutation, 69 *abs*
Proto-oncogene *c-kit*
Analysis of the proto-oncogene *c-kit* in acute non-lymphoblastic leukaemia, 67 *abs*
Publication ethics
Guidelines on good publication practice, 2(BC)
Pyrogallol red
Protein determination in cerebrospinal fluid by protein dye-binding assay, 281(OA)

Quality control
Internal quality control in virology: validation of immunoassays using a personal computer spreadsheet, 302(OA)

Receptors, growth factor
Vascular endothelial growth factor in human milk, 215 (BS)
Vascular endothelial growth factor and its receptor, Flt-1, in smokers and non-smokers, 207(OA)
Recombinant rabbit tissue factor
Monitoring oral anticoagulant therapy using a thromboplastin containing recombinant rabbit tissue factor, 72 *abs*
Red cell reagents
Producing quality red cell reagents at the East Anglia Centre, 97 *abs*
Renal 11ß-hydroxysteroid dehydrogenase
Renal 11ß-hydroxysteroid dehydrogenase activity throughout the menstrual cycle, 53 *abs*
Research Quality Assessment exercises
Quality and funding in biomedical science, 59 *abs*
Respiratory viruses
Respiratory viruses in adult liver transplant patients, 99 *abs*
Rh-Hr blood-group system
Monoclonal reagents for Rhesus-D typing of Irish patients and donors: a review, 142(OA)
RhD typing and the significance of D^u, 339(L)
Rosacea
The effect of *Helicobacter pylori* eradication on rosacea, 38 *abs*

Salmonella enterica
Detection and characterisation of integrons in *Salmonella enterica* serotype *enteritidis*, 37 *abs*
Salmonella spp.
A simple five-minute chromogenic test panel for differentiation of *Salmonella* spp. from competitor organisms, 46 *abs*
Selective serotonin re-uptake inhibitors (SSRIs)
Analytical performance of clozapine and selective serotonin re-uptake inhibitor assays, 51 *abs*
Seminal fluid
Biochemical and biophysical values of human semen, 52 *abs*
Serotyping
Deoxyribonucleic acid restriction digest patterns in *Campylobacter* species: a comparison with Penner serotype, 137(OA)
Serous fluids cytology
Diagnosis challenges in serous fluids cytology, 56 *abs*

Serum C4
Serum C4 complement levels in multiple myeloma, 93 *abs*
Sickle cell disease
Detection of the ßˢ gene: an evaluation of the solubility test against automated chromatography and haemoglobin electrophoresis, 292(OA)
Undetectable serum glucose concentration in a patient with priapism, 151(BS)
Small-colony variants of *Staphylococcus aureus*
Small-colony variants of *Staphylococcus aureus*, 317(BE)
Smoking
Comparative study of two near-patient tests for smoking, 54 *abs*
Vascular endothelial growth factor and its receptor, Flt-1, in smokers and non-smokers, 207(OA)
Software
Internal quality control in virology: validation of immunoassays using a personal computer spreadsheet, 302(OA)
Soluble transferrin receptors
Soluble transferrin receptor — application and indications, 64 *abs*
South Africa
Diagnostic cytology and oesophageal cancer — a South African perspective, 58 *abs*
Spherocytosis
Membrane protein band 3 assay in hereditary spherocytosis using flow cytometry, 74 *abs*
Staining methods
Antigen retrieval methods used in a London medical school histopathology department, 89 *abs*
Immunoperoxidase staining of routine paraffin-wax sections for the diagnosis of muscular dystrophies, 87 *abs*
Lectin staining in lungs from models of mucus hypersecretion, 82 *abs*
Modification of a tinctorial stain for histomorphometric analysis of subchondral bone in a model for osteoarthritis, 80 *abs*
A rapid one-step staining method for oesophageal and gastric biopsies, 81 *abs*
Standards
Microbiological safety cabinets: selection, installation, testing and use, 330(RA)
Staphylococcus aureus. *see also* Methicillin resistant *Staphylococcus aureus* (MRSA)
Small-colony variants of *Staphylococcus aureus*, 317(BE)

T-cells
T-cell and neutrophil functional assays, 92 *abs*
Thermus aquaticus (Taq)
Thermus aquaticus (Taq) error rates and REP-PCR, 338(L)
Thromboplastin
Monitoring oral anticoagulant therapy using a thromboplastin-containing recombinant rabbit tissue factor, 72 *abs*
Thromboplastin dilution test (TDT)
Influence of phospholipid composition and concentration on the thromboplastin dilution time, 63 *abs*
Tissue banks
Human research tissue banks in the UK National Health Service: laws, ethics, controls and constraints, 250(RA)
Tissue factor pathway inhibitor (TFPI)
Tissue factor pathway inhibitor-factor Xa complexes and anticoagulant therapy, 70 *abs*
Toxoplasma infection
Toxoplasma — a fuss about something, 94 *abs*
Transfusion science
Confidential inquiry into blood usage in orthopaedic surgery at six Welsh hospitals, 97 *abs*
Haematologists' concern over blood safety, 95 *abs*
Transfusion reaction. What do I do?, 95 *abs*
Trichomonas vaginalis
A new look at *Trichomonas vaginalis*, 94 *abs*
Tuberculosis, bovine
The bovine tubercle bacillus, 234(RA)
Tumour necrosis factor α
Ethnic differences in allele frequency of TNF-α –308 promoter polymorphism, 93 *abs*
Tyrosinase
Tyrosinase and Melan-A: new antibodies for the demonstration of melanoma, 87 *abs*

UK NHS Hospitals
Human research tissue banks in the UK National Health Service: laws, ethics, controls and constraints, 250(RA)
Urethritis
The molecular detection of *Chlamydia trachomatis* in urine samples from men with urethritis, 35 *abs*
Urinary antigens
Urinary antigen diagnosis of meningococcal disease, 153(BS)
Urinary immune complexes
Detection of urinary immune complexes by capillary flow capture immunoassay, 51 *abs*
Urine microbiology
An assessment of urine particle counting machines using work study, 39 *abs*

Vascular endothelial growth factor (VEGF)
Vascular endothelial growth factor and its receptor, Flt-1, in smokers and non-smokers, 207(OA)
Vascular endothelial growth factor in human milk, 215(BS)
Venezuela
Search for compounds with biological activity in plants of the Venezuelan Amazon region, 36 *abs*
Seroepidemiological survey of leptospirosis in a region of Venezuela, 35 *abs*
Venous thromboembolism
Comparison of an online D-dimer assay to exclude venous thromboembolism, 76 *abs*
Virology
Internal quality control in virology: validation of immunoassays using a personal computer spreadsheet, 302(OA)
Molecular biology in a routine diagnostic virology laboratory, 100 *abs*
Vitros ECi: evaluating the performance of a new diagnostic system, 98 *abs*
Vitek system
Errors in determining trimethoprim susceptibility of staphylococci using the Vitek, 45 *abs*
Vitek automated identification and susceptibility testing system: introduction into a busy clinical bacteriology laboratory, 307(BS)
Vocational trainers
Vocational training for biomedical scientists — support your trainers!, 62 *abs*
von Willebrand factor antigens
von Willebrand factor antigen immunoassay evaluation using the MDA-180, 70 *abs*

Wales
Confidential inquiry into blood usage in orthopaedic surgery at six Welsh hospitals, 97 *abs*

Waste disposal treatment
Fugitive discharges and waste disposal: the discussion continues, 339(L), 341(L)
Fugitive discharges from waste disposal treatments, 181(L), 182(L)
Waste disposal treatment, medical
Heat disinfection of clinical waste: microbiological assessment and monitoring of effectiveness, 107(OA)
Water pollution
Effects of pollution on the health of some aquatic fauna, 50 *abs*
Weak D
Monoclonal reagents for Rhesus-D typing of Irish patients and donors: a review, 142(OA)
RhD typing and the significance of D^u, 339(L)

Yersinia enterocolitica
Polymerase chain reaction for rapid detection of pathogenic *Yersinia enterocolitica*, 44 *abs*
